- Family Fit Lifestyle Month

# Health Program Calendar SY 2023-2024

Hello Families!

We are so excited to start this new school year with you. Among the many services we provide in our Head Start, Early Head Start, & Child Care Programs, our Health Program ensures each child receives high-quality health, oral health, mental health, and nutrition services that will support their overall growth and school readiness.

Details of our Health Program services were shared with families during Parent Orientation. If you would like a hard copy of the Health Program Presentation, please contact me and I will be happy to share that with you.

Please keep this calendar handy, as it is a general schedule of the health services we will be providing to the children throughout the school year. If you have any questions or concerns please feel free to contact me! ☺

Thank you!

*Aikiko Herrera*
